Providing The Best Professional Skincare, Laser & Medical Spa Treatments, Dr. David Green Of Maryland Always Puts His Patients First

David Green, M.D., F.A.A.D., one of the leading dermatologists in the suburban Maryland and the metropolitan Washington, DC area for more than 20 years, recently celebrated the grand re-opening of his second medical spa location, The Cosmetic & Laser Center of Annapolis. The success of Dr. Green's original office in Bethesda inspired him to expand and to offer his services to his neighbors in Annapolis. His licensed clinical aestheticians and staff are dedicated to providing the very highest quality dermatologic and cosmetic skincare.

Dr. Green prides himself on the level of quality care and personalized service he extends to each of his patients. The Cosmetic & Laser Center of Annapolis and the David Green, M.D. Dermatology & Laser Center are equipped to serve your aesthetic, laser therapy and medical spa needs. Some of the many special medical services provided include sclerotherapy for the removal of varicose and spider veins, StarLux Fractional Skin Resurfacing, Thermage CPT, tattoo removal, IPL photo-facial treatments, Botox for removal of facial lines and perspiration reduction as

well as laser hair removal services. They also offer Restylane, Perlane, Visia facial analysis, permanent makeup and anti-aging treatments. With a complete staff of medical and aesthetic professionals, each office specializes in customized aesthetic spa services including signature European and oxygen facials, medical grade facial peels, microdermabrasion and microcurrent treatments as well as acne and rosacea treatments. Now may be the time to explore gift certificates for their special men's services as well as their bridal party services.

Dr. Green has recently added the newest Thermage CPT therapy platform, Comfort Pulse Technology (CPT), as well as the latest Juvederm Ultra Plus XC dermal fillers, all of which provide a more comfortable patient experience. Dr. Green is one of the first dermatologists in the Annapolis and Bethesda, Maryland areas to offer the CPT technology to his patients. He is the very first dermatologist in our area to offer the Intraceuticals Hyperbaric Oxygen Infusion Facials, which are extremely popular with many Hollywood celebrities because they rejuvenate, brighten and keep the skin blemish-free.

Dr. David Green notes, "My approach to cosmetic aesthetic dermatology takes into account each patient's immediate concern, as well as their overall skincare health. We carefully personalize and customize our services for each patient. This includes efforts to prevent skincare challenges as well as to maintain healthy skin in the future. My approach is one of a total team effort. I work closely with professional aestheticians who have been trained by me to manage healthy skin as well as their problem skin. Together, we are able to provide an optimal skincare approach to our clients and patients by enabling them to benefit from the most recent innovations in professional skincare and healthcare."

Dr. Green recently attended the annual American Academy of Dermatology conference in Miami, FL to stay abreast of the latest technology and cutting-edge approaches to medical skincare, laser therapies, anti-aging treatments and skin rejuvenation. Dr. Green is certified by the American Board of Dermatology and is a Fellow of the American Academy of Dermatology, the American Society for Dermatologic Surgery, the American Society for Laser Medicine and Surgery and the American College of Phlebology. He is a respected member of the Montgomery County Medical Society, the Maryland Medical Society, the American Medical Association and an honorary member of the Italian Dermatologic Association. Dr. Green is a Clinical Associate Professor of Dermatology at Howard University Hospital in Washington, D.C. He is currently on the staff of Sibley Memorial Hospital in Washington, D.C. and Suburban Hospital in Bethesda, Maryland. He has also been published in prestigious peer-reviewed medical journals and has lectured nationally and internationally to fellow dermatologists.
